

TRANSFER STATION

Our transfer station is open Monday through Saturday and accepts various materials for disposal and recycling from third-party haulers to contractors and DIYers. Use of our location is ideal for those who have a large quantity of material that is too great for their regularly scheduled service but not enough to require a dumpster rental.

Accepted Materials

- Construction Debris – Wood, drywall, roofing, etc.
- General Debris – Clothing, furniture, appliances, etc.
- Heavies – Soils, concrete, brick, asphalt, etc. (must be clean and free of debris)
- Yard Waste – Trees, brush, leaves, grass clippings, etc. (organic material)
- Tires – Passenger car/light truck, semi, and oversized tires

Policy/Procedure

*All self-dumping trucks must arrive 15-minutes before close, while anyone unloading by hand must arrive 1-hour before closing time. A Hi-Vis jacket, shirt, or vest is required to be worn at all times while outside of a vehicle. If you don't have Hi-Vis apparel, Hi-Vis vests are available for purchase at our scale house.

TRANSFER STATION & OFFICE
